Quotations are valid for 7 days from the submission date unless otherwise mentioned. Prices apply to stackable goods, but exclude dangerous goods or perishable cargo and any type of liquid, unless otherwise stated. High-density shipments and cargo containing liquids, lubricants, granules, powders in drums/bags require a separate aviation security procedure. Additional expenses for this procedure will be charged at cost.

Our offer includes a free loading and unloading time of 1 hour each, we charge EUR 35.00 for each additional 30 minutes started. If a hydraulic "truck lift" is required for loading and/or unloading, we will also charge for the use of appropriate vehicles according to the outlay. Unless otherwise stated, palletizing costs are not included.

A so-called FBA handling (Fulfillment by Amazon) is only possible on request and requires a specific quotation.

Our calculation is based on packages with maximum dimensions of: length 250 cm, width 140 cm and height 160 cm. The billing is based on a chargeable weight with a ratio 1:6 (1 cbm = 167,0 kg) for Air Freight while the ratio for collections & deliveries may vary.

This quotation replaces all previous offers and/or verbal agreements/discussions regarding the stated prices. We base our prices on the transmitted forecast and reserve the right to adjust the offer for the quantities in excess of this.

If the Freight Forwarder owes or has advanced payments in foreign currency, they are entitled to request payment in either the relevant foreign currency or in EURO. In the case of payment in EURO, the currency conversion will be based on the exchange rate on the day the booking was confirmed, plus a one-off exchange rate risk surcharge of 5%, unless otherwise agreed. Forto sources the exchange rate from the API provider Currency Layer. The EUR - USD rate is updated in our system every hour.

Changes that occur, surcharges that were not known at the time of booking or were not foreseeable nor fixed in advance, as well as other costs of the carrier - e.g. introduction of new or change of existing surcharges, higher fuel prices, changed exchange rates, increase in toll fees, etc., entitle us to an adjustment. Any costs not caused by us, e.g. customs inspection, storage and transfer costs, material and packaging costs, factual assessment, handover fees, bank exemptions, etc. as well as customs and import duties, handling of letter of credits, dangerous goods acceptance, multi-stop, etc. will be charged to you at costs, possibly plus a handling fee.
